<http://www.monroecountyswcd.org>

2020 FALL FISH STOCKING PROGRAM

ALL ORDERS MUST BE RECEIVED WITH PAYMENT BY October 5th, 2020

Scheduled DISTRIBUTION is October 9th, 2020 from 12:00 p.m. to 1:00 p.m.

Distribution will be at the Monroe County Soil & Water Conservation Office (address above). We have no holding facilities.

You must arrive during this distribution time or you will forfeit your order. NO REFUNDS.

PLEASE READ:

- 1) You will need to bring **20 gallons of pond or lake water** for every 6 *Grass Carp*, 30 *Catfish*, 500 *minnows*, 75 *Perch*, 50 *Bass* (20 larger bass), 50 *Black Crappie*. **Do NOT use tap water!**
- 2) Recommended travel time should not exceed 30-45 minutes. Aquarium aerators can be used to decrease stressors to fish during transport.
- 3) Please bring a cover for the container(s) of water in order to reduce risk of fish loss or water loss. A garbage bag with a tie is acceptable if you do not have a container with an appropriate lid.
- 4) Additional information to consider before ordering specific species or items can be found on the next page. (You NEED a Triploid Grass Carp permit to buy carp. Information about how to obtain a permit can be found on the next page).
- 5) Online ordering is available at: <https://squareup.com/store/monroe-county-soil-and-water-conservation-district>
Credit card payments are also accepted over the phone at (585)753-7380.

PLEASE SEND YOUR GRASS CARP PERMIT (3 copies) WITH YOUR ORDER

OR a copy can be sent via email to mcswcd@monroecounty.gov

(retain a photocopy for your records). This will enable us to expedite the distribution of your order.

You will receive a signed copy with your grass carp the day of distribution.

*The Soil & Water Conservation District is **not** responsible for fish after they leave the pick-up area.*

*Please consider additional information available on next page before ordering these species or items.

(Sales Tax is already included)

Additional Information:

- * **You NEED a Triploid Grass Carp permit to buy carp.** If you do not have a permit, call the New York State Department of Environmental Conservation (NYS-DEC), Fisheries Office at (585) 226-5343 to obtain an application or download the form from the NYS-DEC at: http://www.dec.ny.gov/docs/fish_marine_pdf/grasscarppermitappl.pdf . The form is also available on our Website on our Fish Stocking Program Page (monroecountyswcd.org).

Triploid Grass Carp control aquatic vegetation by consuming various types of soft stemmed rooted plants. Grass Carp will NOT control algae. Customers have been known to successfully use barley straw to reduce algae growth. For more information visit our website address above.

- ** **Barley Straw** is available at our Fish Stocking Program event, and is intended for use as a natural algae reduction method in ponds. Note that if you use barley straw to help reduce algae growth, it is best to put the straw in the pond as early as possible in the spring before algae starts to grow. Contact our District if you need help determining how much barley straw you will need for your pond.
- Fish sizing and availability may vary depending on yearly weather conditions.
- You may obtain a free Farm Fish Pond License to stock fish by calling the NYS-DEC Fisheries Office at: (585) 226-5343. Permits are good for 5 years. This form is also available on the District website listed above.
- Koi are no longer offered at our Fish Stocking Event. Koi are now listed as a regulated invasive species in New York State due to their harmful impacts on native populations in natural waterbodies. Please feel free to contact our office for suggestions on similar functional replacements for your pond.
- Additional information about fish needs and other items offered is available in our Fish Program Catalog on our Website on our [Fish Stocking Program Page](#)
